MOSCOPE - INTRODUCTION

Missouri is susceptible to a wide range of natural and man-made disasters and emergencies, as well as other significant events. The effective management of emergency response personnel during the incipient stage of any major or complex incident and throughout its extended operations will, by far, have the most significant impact to lessen life loss and the severity of injuries to the affected population.

Missouri communities have historically relied upon mutual aid resources for emergency situations exceeding the capability of a single jurisdiction. In 1990, the Missouri General Assembly enacted House Bill 1395-1448 which provided the support for establishing a statewide mutual aid system for major emergencies or disasters.

Further, in 2005, additional legislation was passed to enhance the existing Mutual Aid System and provide a foundation for a multi-discipline, multi-jurisdictional system that also provides for crossing state boundaries when needed. This legislation was key to the mutual aid system as it exists today.

Initially, a representative cross-section of the fire service contributed to the organization of the system which evolved out of past experiences in dealing with the day-to-day incidents that continually challenge our resources and competencies. The plan was revised in 2007 with the encouragement and assistance of the International Association of Fire Chiefs and representatives of major agencies and organizations that would be called upon to assist affected jurisdictions in combating the problems of a major disaster. The revised plan became **Missouri Systems Concept of Operational Planning for Emergencies (MoSCOPE)**.

While MoSCOPE is to be utilized by Missouri's emergency services for the response of its personnel and equipment during a disaster, major emergency, or a significant event, other organizations and agencies are encouraged to use it as a template for their response. This multi-discipline, multi-jurisdictional plan can provide one "playbook" on how responders in Missouri work together in order to prepare for, respond to, and recover from major and complex incidents.

In 2012, the law enforcement and emergency medical service communities developed and included their plans under the MoSCOPE umbrella. The K9 Mutual Aid Plan was also incorporated.

The plan continues to be updated and revised as needed based on exercises, activations, after action reviews, and lessons learned by our mutual aid partners and colleagues. The template has also been utilized as the basis for several interstate plans across the country.

AUTHORITY FOR MUTUAL AID

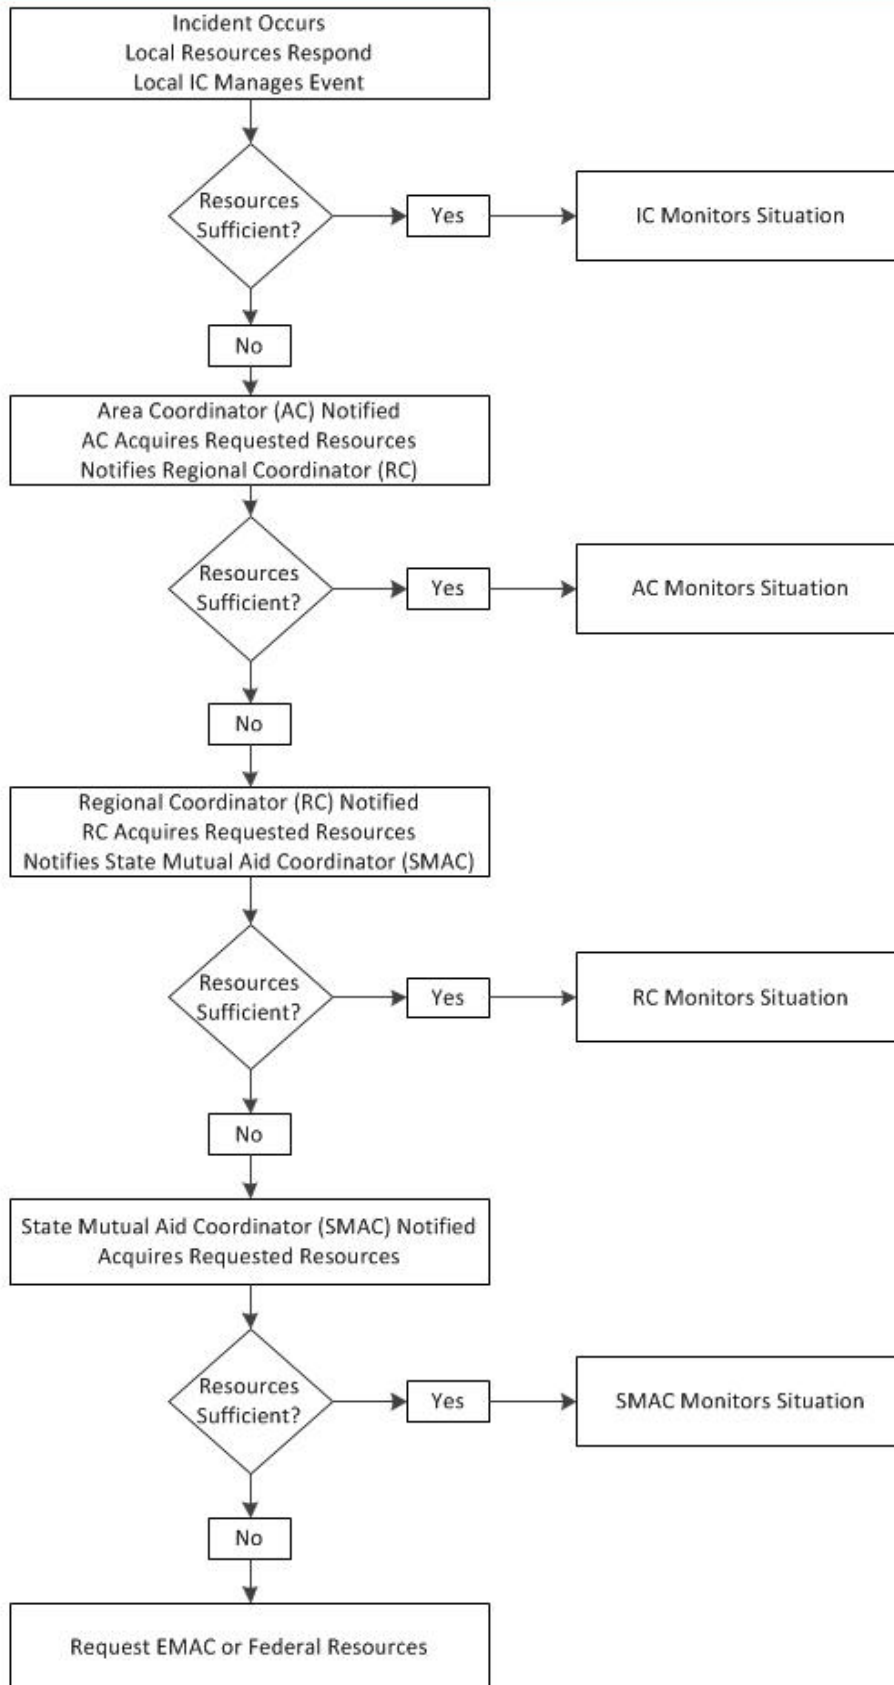

The authority for mutual aid response within Missouri lies within the state statutes. These statutes are enabling, whereby a governmental entity is part of the system unless by resolution that entity opts out. The statutes also have provisions that enable private providers - ambulances services, hospitals, contractors, etc. - to participate in the system

The statutes leave the final decision regarding deployment with the local entity; the decision to accept or decline a request for assistance lies solely with that requested agency. The statutes also enable free flow of resources in and out of the state even on a daily basis.

The general mutual aid laws, as well as discipline specific statutes, can be found in Appendix A of this plan.

THE BASIC PLAN

Missouri State Mutual Aid

PURPOSE

MoSCOPE is the template for a coordinated system that could be utilized to mitigate the effects of the complete spectrum of emergencies and events that will affect Missouri and its citizens, specifically by providing a platform for sharing and receiving resources, locally, regionally, and nationally. It is a practical approach to provide mutual aid resources - be it personnel, apparatus, equipment, information or technology - in quantities beyond the means of any single department, agency or jurisdiction.

SCOPE

The mutual aid plans herein are components of an all hazard system for allocation, mobilization, and deployment of resources in response to local incidents that requires more resources than those available under any existing inter-jurisdictional mutual aid agreement, especially in response to a major disaster where assistance needs to be provided from one area or region of the state to another.

This plan is designed to augment the available resources during time of emergency or significant event. Nothing in the plan supersedes or prevents the development and use of local mutual aid agreements or operational plans between agencies and other parties.

The plan encompasses all jurisdictions and providers unless they opt out by resolution.

PLAN CONCEPTS

The plan is directed towards enhancing emergency response and disaster management by:

- Providing a systematic plan that can be utilized from the smallest local event, through regional incidents, up to and including catastrophic, statewide and interstate disasters.
- Improving comprehensive situational awareness of an event's potential or actual impact across regions of the state.
- Providing a method for timely activation, deployment and tracking of typed emergency personnel and resources requested by on-scene incident commanders or points of coordination.
- Providing for a systematic approach to response that will give all first responders a common operating picture.
- Realizing that all emergencies start at the local level and will end at the local level. Resources will operate at the direction of the local jurisdiction.
- Complimenting other disaster plans at the local, state and national levels.
- Facilitating interstate mutual aid in order to bring the closest, most appropriate resources to bear on the situation. The systematic NIMS-based response also supports coordination with federal resources.
- Adhering to the National Incident Management System (NIMS), thereby providing common preparedness, response and accountability expectations to users of the system, and enabling interoperability with existing and future local and national mutual aid initiatives and resource ordering systems.
- Being structured to take advantage of available resources while maintaining a base level of coverage for sending jurisdictions.
- Establishing the positions, roles, and responsibilities necessary to activate and maintain this plan, including review and improvement of the plan and overall system.

COMPETENCIES AND CAPABILITIES

The assisting agency has the responsibility to ensure that the equipment and personnel meet the requirements of the mission request. In addition, all responding personnel must be NIMS compliant and all equipment shall meet typing requirements as requested. These assurances must come from the authority having jurisdiction sending the assistance, and be capable of being proven by audits.

Any entity or individual that holds a license, certificate, or other permit issued by a participating political subdivision, public safety agency, or state shall be deemed licensed, certified, or permitted in the requesting political subdivision or public safety agency's jurisdiction for the duration of the emergency.

COMMAND AND CONTROL

The control of the incident will remain the responsibility of the local jurisdiction. Any and all assistance that is requested and responds will be there to assist the requesting jurisdiction and its leaders.

LIABILITY

Liability of all types remains the responsibility of each participating organization; if a jurisdiction chooses to participate in giving and receiving mutual aid, the organization agrees it will maintain liability over its people and equipment.

To the extent permitted by law and without waiving sovereign immunity, each participating organization will be responsible for any and all claims, demands, suits, actions, damages, and causes for action related to or arising out of or in any way connected with its own actions, and the actions of its personnel in providing mutual aid assistance rendered or performed pursuant to the terms and conditions of the plan.

WORKERS COMPENSATION

Each participating organization will be responsible for its own actions and those of its employees and volunteers, and is responsible for complying with the Missouri workers' compensation laws.

VEHICLE LIABILITY COVERAGE

Each participating organization will be responsible for its own actions and those of its employees and volunteers, and is responsible for complying with the Missouri vehicle financial responsibility laws.

PLAN ACTIVATION

When determined by the local Incident Commander that local mutual aid resources are inadequate to cope with the emergency at hand, required resources shall be requested according to the state mutual aid plan by notification of the local area coordinator and/or regional coordinator or coordination center.

Area Plan Coordinator(s) will upon notification:

- Evaluate and establish resource availability within the area.
- Coordinate the dispatch of requested resources from those available within the area, including those needed for backfill.
- Maintain situational awareness and communicate status to the Regional Coordinator.
- Provide representation from the mutual aid system to the local IC as needed.

Regional Plan Coordinator will upon notification:

- Evaluate and establish resource availability within the region.
- Coordinate the dispatch of requested resources from within the region through the Area Coordinators.
- Maintain situational awareness and communicate such to the State Coordinator, including current resource status of the region, and anticipated and actual resource needs.
- Request dispatch of an Incident Support Team (IST) to assist as needed.
- Identify staging areas as required by incident and requests.

State Plan Coordinator will upon notification:

- Evaluate conditions and resource availability throughout the state.
- Alert all other regional coordinators of anticipated inter-regional dispatch of resources
- Select regions from which additional resources are to be mobilized to fill requests.
- Coordinate the response of inter-regional mutual aid resources.
- Act as discipline liaison to the State EOC and other partner agencies
- Compile information to be utilized in an after action evaluation process

REQUEST FOR ASSISTANCE

The Mutual Aid Resource Request Form is located in Appendix H and should be utilized 1) by the requestor to collect information that will be required by the mutual aid coordinator, and 2) by the mutual aid coordinator to ensure complete collection of information and to serve as a record of the request.

RESPONSE LEVELS

The response level will be based on the request and needs of the incident.

Scramble Response - This deployment of resources shall be within one (1) hour of notice from the Regional/Area Coordinator. Anticipated deployment duration will range from 24 hours to a maximum of 48 hours. Deployed resources shall respond to the designated staging area(s) and the first arriving resource shall be designated as the Staging Area Manager.

Standard Response - This deployment of resources shall be within three (3) hours of notice from the Regional/Area Coordinator. Anticipated deployment duration will range from 48 hours to a maximum of 96 hours. Deployed resources shall respond to the designated staging area(s) and the first arriving resource shall be designated as the Staging Area Manager.

Maximum Response-The maximum time for deployment shall be for 16 days. This includes one travel day in each direction. This would be typically for an interstate and/or EMAC deployment.

MISSION NUMBERS

When coordinating an intraregional mutual aid request, the regional mutual aid coordinator may assign a mission number to the request. **The number will be recorded on the Mutual Aid Resource Request Form, and may also be used in WebEOC or other resource tracking programs being used.** The number not only serves as a unique tracking identifier for general record keeping, but may also be used to verify the legitimacy of the resource when it arrives at the incident.

An intraregional mission number will indicate the region of the incident, the date of the request, and the sequential number of the request associated with that date in the following format:
Example C- 030515 - 1

For statewide, interregional responses, the State Mutual Aid Coordinator will assign a number using the same format, with the addition of MO at the front end.

Example: MO-C-030515-1

RESPONSE AND STAGING

Regional Coordinators shall make the decision as to the location and use of staging areas and/or the use of convoy deployment to facilitate the more rapid movement of resources. These may be by tasks force or strike team assignments.

RESOURCE TRACKING AND DOCUMENTATION

It is critical that all resources and resource movements are documented and tracked utilizing the standard forms included in the Mutual Aid Forms Packet, the ICS Forms Excel Worksheet found at <http://www.dfs.dps.mo.gov/documents/>, and available associated technological tools.

Each company/unit officer/responding agency is responsible for the proper documentation and submission of forms to the appropriate mutual aid coordinator(s) and to the requesting jurisdictions.

LOGISTICS

The logistical support of mutual aid resources is critical in the management of a disaster effort. Often a sustained tiered resource response will be necessary, which requires extensive logistical considerations. Logistical support needs to be considered before deployment occurs, and planned for the potential duration of the incident.

Logistics support *may* be offered by the agency requesting the resources; however, the nature of disasters is that the requesting agency is already taxed and logistical support may well be limited. Therefore, responding personnel must be prepared to be self-supporting for the duration of the mission.

Items to consider include (but are not limited to):

- Transportation needs
- Staging areas, within and outside, the disaster area
- Vehicle parking and security
- Transportation of personnel and equipment to and from the sites (base camps, staging, work sites, etc.)
- Maps and GIS support
- Emergency vehicle towing and repairs
- Fuel, oil, and water needs
- Lodging
- Sleeping and rehabilitation areas
- Security for personnel areas
- Emergency sheltering locations for weather or other safety reasons
- Bedding
- Electricity/generator power
- Water and sanitary facilities
- Feeding
- Food supplies/utensils
- Food storage and preparation provisions
- Sanitation and clean up
- Communications inside and out of the disaster area
- Critical Incident Stress Debriefing considerations

DEMOBILIZATION

Demobilization of the resources shall be conducted as part of the deactivation of requested resources by the Incident Commander. Each company/unit officer is responsible to ensure that all personnel, equipment and apparatus are accounted for prior to leaving the incident location. (See Mutual Aid Forms Packet for Demobilization Form)

Prior to leaving the incident each company/unit officer shall check-out with the Incident Commander and the mutual aid coordinator responsible for the deployment. The mutual aid coordinator shall verify that the associated documents are completed.

The mutual aid coordinator shall conduct a post incident debriefing with assigned units when possible. Two levels of issues should be addressed - Operational/On Scene, and State Mutual Aid Plan.

Suggested questions to address in the debriefing:

- What did we intend (or plan) to do?
- What actually happened?
- What went well, and why?
- What can be improved, and why/what would we change?

Suggested format for each response:

1. Issue
2. Discussion
3. Recommendation

The operational issues should be presented to the requesting jurisdiction in a timely manner, and the plan issues should be forwarded to the State Plan Coordinator for the involved disciplines.

REIMBURSEMENT

Any response coordinated through the Statewide Mutual Aid System should be considered an *unreimbursed* response unless an agreement is arranged between the requesting and responding entities.

Reimbursement is dependent on accurate supporting documentation. In the event of agreed upon reimbursement between the requesting entity and the responding resource, necessary documentation will include a mutual aid agreement and records of any operational costs related to personnel, use of equipment, and travel. Additionally, it is **critical** to document *the request for mutual aid* in addition to documenting costs.

Documentation is the sole responsibility of the responding resource. The forms included in the Mutual Aid Forms Packet provide guidelines and tools to properly document costs.

Reimbursement claims must be coordinated with the authority having jurisdiction within the impacted county.

Reimbursement for services rendered according to this plan shall be in accordance with any local, state and federal guidelines.

DOCUMENTATION AND DONATION OF COSTS

Even without a reimbursement agreement, each responding entity should maintain exactly the same documentation for each deployment for a number of reasons.

First, in the event of a major incident, a “bill” of response costs submitted to the affected jurisdiction can be used by that jurisdiction to reach the minimum threshold of disaster costs necessary for federal aid. The responding organization may then choose to assume or donate those costs - in whole or in part - to that affected jurisdiction.

Secondly, in the event of a federal declaration, volunteer mutual aid personnel response hours may be able to be used by the affected jurisdiction to offset the local match portion of the disaster costs, resulting in more federal reimbursement to that impacted location.

And thirdly, documentation of mutual aid costs is utilized for state reporting and data analysis, which may impact any decision on the part of the state to provide financial or logistical support to mutual aid response agencies.

DECLINING REQUEST

Due to the need for local jurisdictions to ensure that they are able to provide service to their citizens, there shall be no liability imposed against any jurisdiction or its personnel for declining a request for assistance.

SOCIAL MEDIA AND INFORMATION RELEASE POLICY

Unauthorized posting on social media sites can compromise both the integrity and the safety of the mission. When deployed to an incident through the Statewide Mutual Aid System, responders will not post or release any information or images related to the incident unless directed to do so by the Incident Command. This applies to both personal and official accounts, during and after deployment, and relates to all social media including - but not limited to - Twitter, Facebook, Instagram, Pinterest, Snap Chat, blogs, etc.

Additionally, no information about operations should be released to non-authorized individuals by any means under any circumstances.

Responders are not to take pictures of victims, alive or deceased at any time, unless specifically instructed to do so by incident command for documentation/evidence purposes. Remember that in an incident that could be deemed a crime scene, any photos and the devices used to take the photos are subject to confiscation as evidence.

Violations of this policy will result in dismissal from the incident.

SELF DISPATCH

Under the activation of the State Mutual Aid Plan – Self dispatch will not be allowed and the local Incident Commander will be discouraged from utilizing the self-dispatched resources over the resources deployed through the Plan.

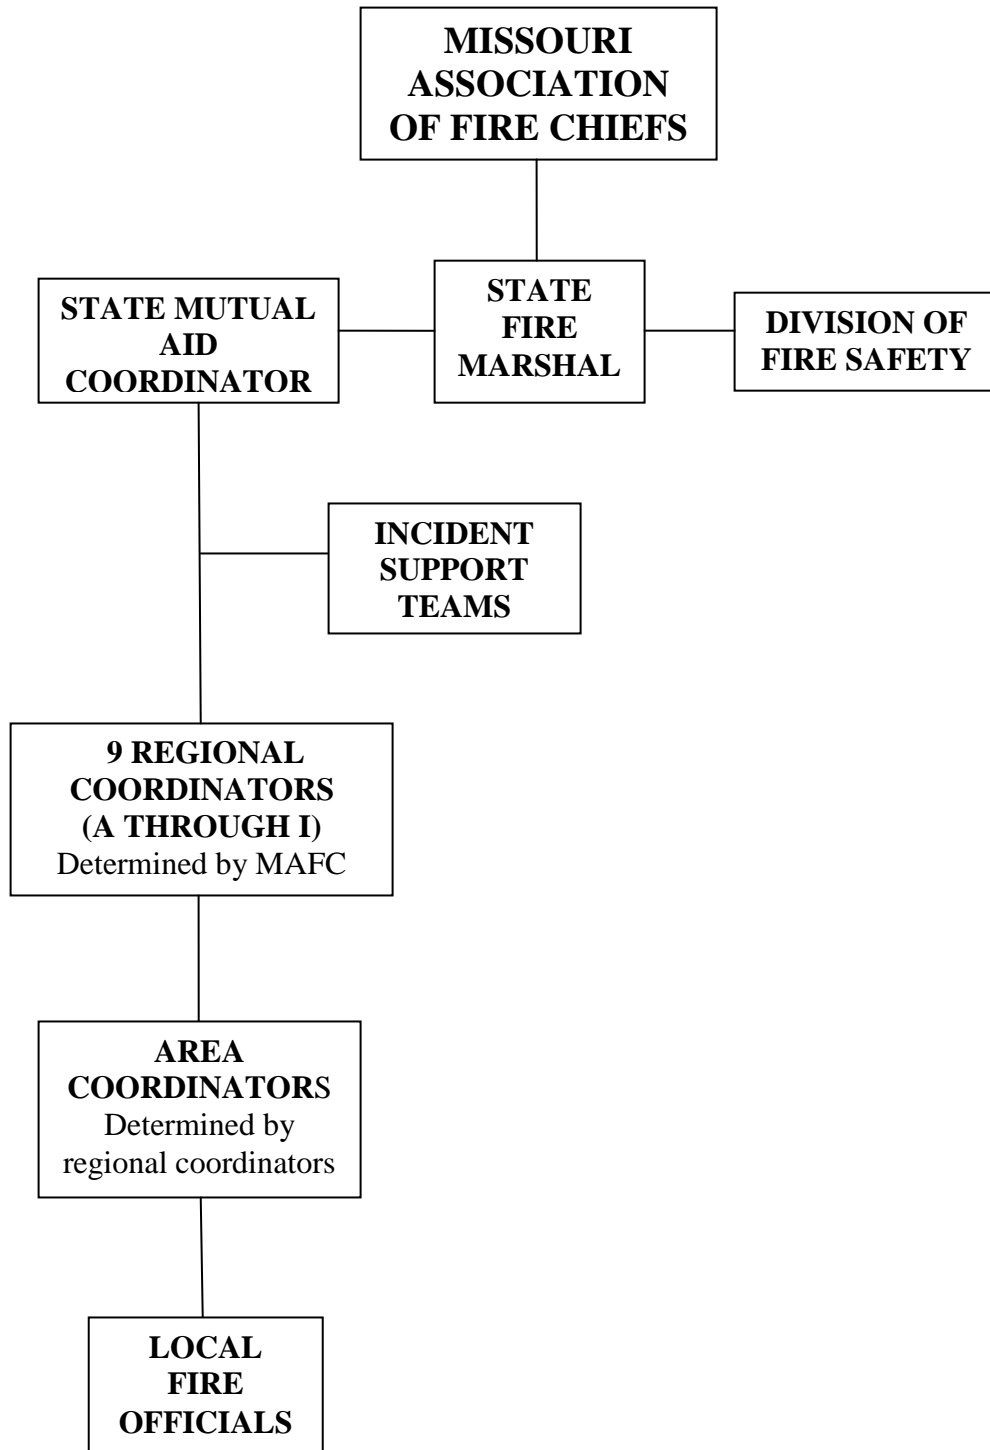

Those resources deployed through self-dispatch will be communicated to the appropriate State Plan Coordinator and will be subject to removal as part of the State Mutual Aid Plan up-to a period of one (1) year. In addition, self-dispatched units will not be eligible for any logistical support (including but not limited to food, shelter, fuel) or reimbursement. Self-dispatched resources may not be covered for liability and may not be eligible for line of duty injury or death benefits.

DISCIPLINE SPECIFIC ANNEXES

Annex A

Missouri Mutual Aid System for Fire Resources

PLAN ORGANIZATIONAL CHART

PLAN ORGANIZATION

Fire service mutual aid includes all public entities furnishing fire protection within the state and all agencies and departments of the state which provide fire protection services. In the event of a major emergency or a state-wide disaster, all fire protection agencies become an organizational part of the system.

Lead Agency - Division of Fire Safety

The Division of Fire Safety shall act as the liaison between the State Fire Mutual Aid Plan and state government. The Division of Fire Safety is also responsible for taking appropriate action on requests for mutual aid received through the plan's Regional Coordinators. The Division of Fire Safety serves on the State Unified Command when activated, and coordinates both ESF 4 (Fire) and ESF 9 (Search and Rescue) in the State Emergency Operations Center.

State Fire Marshal

Maintains overall responsibility for plan activation and oversees State Mutual Aid Coordinator.

State Mutual Aid Coordinator

The State Mutual Aid Coordinator is responsible for the overall coordination, management, and maintenance of the Missouri Mutual Aid System for Fire Resources. The State Coordinator shall be an employee of the Missouri Department of Public Safety under the direct supervision of the State Fire Marshal, and shall have knowledge of, and experience in, any or all of the following: volunteer and/or career fire service, search and rescue, hazardous materials response, coordination of multi-agency responses to emergencies, emergency medical service, and law enforcement.

The State Plan Coordinator administrative and response responsibilities include:

- Chairing, directing, training and exercising this plan
- Activating and coordinating the use of the plan during emergencies.
- Maintaining situational awareness within the state, and sharing information with federal, state, regional and local stakeholder partners
- Serving as a liaison and interacting with other agencies and disciplines for planning, training, exercise and response purposes
- Ensuring that alternate coordinator and regional coordinator positions are filled and operating effectively.
- Conducting meetings with coordinators, gathering resource data, updating plans, and any other administrative functions needed.
- Monitoring plan for any changes needed in terms of legislation, activation, and implementation.
- Maintaining current records of fire organizations, equipment and personnel that can be called upon during plan activation
- Coordinating all grants and training programs in support of the plan.
- Disseminating changes to the plan to the participants of the system.
- Participating in exercises, after action and plan critiques when conducted.

Activation responsibilities include:

- Activating plan when region to region response is requested.
- Coordinating requests and response between regions.
- Maintaining situational awareness statewide and disseminating situational information to plan participants
- Facilitating reimbursement processes.
- Facilitating after action processes for each activation of the plan
- Acting as fire service liaison and making necessary notifications to state agencies and other response partners and stakeholders
- Provides ESF 4 and 9 coordination during State EOC activation.

Regional Plan Coordinators

The Regional Mutual Aid Coordinators are responsible for maintenance and coordination of the plan at the regional level. The Regional Coordinators are selected by the Missouri Association of Fire Chiefs to serve for three years, or at the pleasure of the MAFC Board of Directors.

Administrative duties of the regional coordinators include:

- Selecting alternate/deputy regional coordinator(s) and area plan coordinators in the region as needed
- Compiling resource data from area coordinators, including a record of current fire organizations in the region, along with their equipment and personnel that could be used by this plan during an activation
- Conducting annual meetings with area coordinators to collect resource data, resolve issues, and fill vacancies.
- Assisting with, or developing, a regional mutual aid plan specific to the region represented.
- Activation responsibilities include:
 - Serving as coordinator of the plan in the assigned region
 - Coordinating requests and deployment of the resources associated with the plan.
 - Assigning or acting as a liaison to the affected area
 - Communicating status reports and updates to the State Mutual Aid Coordinator and other designated stakeholders.
 - Participating in each activation after action process

Area Plan Coordinator

Area Plan Coordinators are selected by the regional coordinator.

Administrative duties of the area coordinators include:

- Providing a record of current fire organizations in their area to the Regional Coordinator, including equipment and personnel that could be used by this plan during an activation
- Identify contacts for each fire agency in the area represented

- Ensure each fire agency within the area represented has registered with the Division of Fire Safety
- Ensure each fire agency within the area represented has the capabilities to communicate utilizing the identified mutual aid frequencies for disasters.
- Establishes relationship with local EOC's within represented area
- Assists and/or develops a local mutual aid plan for area represented
- Activation responsibilities include:
 - Coordinating resources activated within assigned area
 - Maintaining situational awareness within the area, and sharing information both up to the Regional Coordinator and down to local agencies
- Assisting plan participants with incident documentation and the processing of reimbursement documents

Local Representation

The fire chief or senior fire service official of each local entity providing fire protection will serve as fire service representative to their respective Area Coordinator.

RESOURCE INVENTORY

In accordance with RsMO 320.271, every fire agency is required to file an Annual Fire Department Registration with the Division of Fire Safety. The information provided in the registration is the basis for identifying mutual aid inventory, and is utilized by the mutual aid coordinators to fill resource requests during plan activation.

Each Regional and Area Coordinator will maintain an updated inventory of the equipment, vehicles and personnel which are available for response within the scope of the plan. The participating agencies will submit the required inventory listing to the Division of Fire Safety, who will provide it to the regional mutual aid coordinators for their use in regional coordination of the plan. The Annual Fire Department Registration can be found on the Division of Fire Safety website at <http://www.dfs.dps.mo.gov>.

APPARATUS NUMBERING

Inter-regional responses will utilize an apparatus numbering system in order to 1) facilitate identification of requested resources at entry and within the incident and 2) facilitate entry of mutual aid apparatus into local computer aided dispatch (CAD) systems as desired for resource tracking.

The numbering system has 3 components:

- The apparatus placard number
- The radio designator
- The CAD apparatus designator

Apparatus Placard Number

This number will be written on a paper or cardboard placard no less than 8 ½” x 11” which shall be placed on the inside of the left side of the windshield in such a way as to be visible from outside the vehicle.

The number will consist of the region letter from which the apparatus is responding, followed by the number of the strike team in sequential order; this is followed by a hyphen and the 4 letter agency abbreviation indicated in Appendix K; following that is another hyphen and a single letter to abbreviate the apparatus type. If the unit is part of a strike team, there will be a number after the last letter.

An example follows for what might be first, second and third strike teams of engines ordered from Regions F and C respectively:

F1 – COLU - E1	F2 – MIDC – E6	C1 – STLO – E11
F1 – BOON - E2	F2 – LITD – E7	C1 – HIGH – E12
F1 – JEFF - E3	F2 – COLU – E8	C1 – PATT – E13
F1 – OSAB - E4	F2 – BOON – E9	C1 – CLAY – E14
F1 - LAKO - E5	F2 – COLE – E10	C1 - EURE – E15

Radio Designator

The radio designator will simply be the apparatus type and number prefaced with “MO”

For the example above, the apparatus operators will identify themselves on the radio as “MO Engine 1”, “MO Engine 2” etc.

CAD apparatus designator

For ease of dispatching, the CAD designators will be similar to the radio designator. The apparatus in the example above would be built in the CAD system as MO-E1, MO-E2, MO-E3, etc. Some variation might be necessary based on unique characteristics of each CAD system. . The system and its operators will determine if further information – for example, the placard number – will be associated in the computer with the assigned CAD designator for further identification of the resource.

MABAS and other adjoining state identifiers

The apparatus, radio and CAD designators will all be identical for any out of state apparatus responding into an affected Missouri jurisdiction; each designator will be comprised of the state abbreviation, the resource type, and the sequential number of the requested unit.

Example:

<u>Apparatus placard</u>	<u>Radio Designation</u>	<u>CAD designation</u>
IL - E1	“Illinois Engine 1”	IL - E1
IL - E2	“Illinois Engine 2”	IL - E2
IA - E1	“Iowa Engine 1”	IA - E1
IA - T1	“Iowa Tanker 1”	IA - T1

Note: It is up to the requesting jurisdiction as to whether the dispatch agency will create units in the CAD for the mutual aid resources. If no CAD is used, the CAD designators can also be used on T-cards, forms, other resource tracking tools, etc,

FIRE PLAN MAINTENANCE

Emergency Response Plan Committee

The coordination of the Missouri Mutual Aid System for Fire Resources - including its development, revision, distribution, training and exercising - is the responsibility of the Missouri Association of Fire Chiefs. The Emergency Response Plan Committee will oversee this process. The committee will be composed of the following:

State Plan Coordinator (Chairperson)

Regional Mutual Aid Fire/Rescue Coordinator-one representative from each of the nine regions

Missouri Division of Fire Safety, one representative

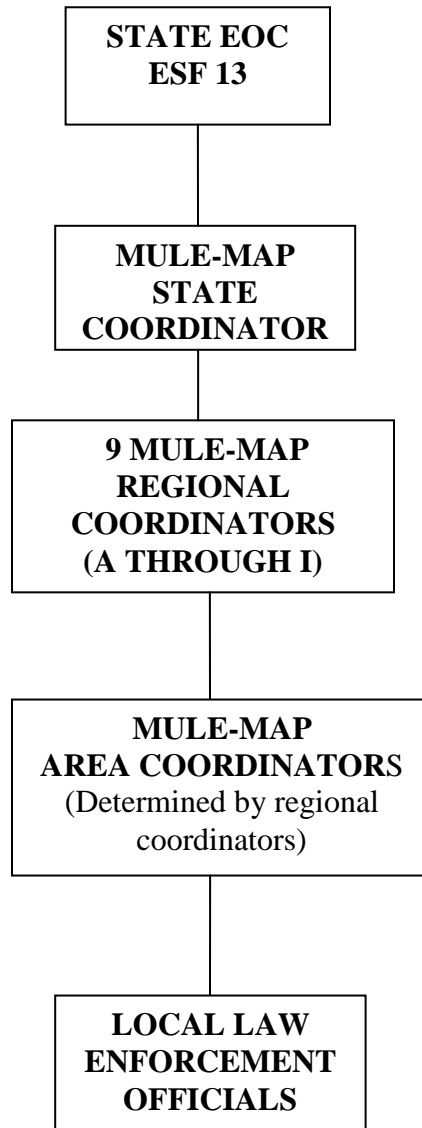

Executive Director of MAFC

Annex B

Missouri Uniform Law Enforcement Mutual Aid Plan (MULE-MAP)

**PLAN ORGANIZATIONAL CHART DURING
ACTIVATION FOR PURPOSES OF REQUESTING ASSISTANCE**

PLAN ORGANIZATION

The Law Enforcement Mutual Aid Plan includes all public entities furnishing law enforcement protection within the state and all agencies and departments of the state which provide law enforcement protection services. In the event of a major emergency or a statewide disaster, all law enforcement agencies become an organizational part of the system.

State Plan Coordinator

The MULE-MAP State Plan Coordinator shall act as the liaison between the MULE-MAP and state government. The State Coordinator is also responsible for taking appropriate action on requests for mutual aid received through the MULE-MAP Regional Coordinators.

In addition, the State Coordinator coordinates with Emergency Support Function (ESF) 13- Public Safety and Security in the State Emergency Operations Center when activated. Missouri State Highway Patrol is the designated lead agency in the SEOC for ESF 13 per the State EOP. The State Coordinator will serve as the liaison for the law enforcement mutual aid plan.

The State Plan Coordinator shall have knowledge of, and experience in, law enforcement activities, coordination of multi-agency responses to emergencies, the fire service, and the emergency medical service.

The State Plan Coordinator is responsible for:

- Chairing and directing this plan
- Training and exercising this plan
- Maintaining current records of law enforcement agencies that can be called upon during plan activation
- Maintaining situational awareness within the state, and sharing information with federal, state, regional and local stakeholder partners
- Activating and coordinating the use of the plan during emergencies.
- Serving as a liaison and interacting with other agencies and disciplines for planning, training, exercise, and response purposes.

Regional Plan Coordinators

The Regional Plan Coordinators are volunteers selected by the MULE-MAP Working Group.

The duties of the Regional Coordinators are:

- Maintaining a record of current law enforcement organizations in the region, including equipment and personnel that could be used by this plan during activation, and a listing of the Chief Executive Officer for each agency (Chief or Sheriff).
- Providing this record to the State Plan Coordinator
- Maintaining situational awareness within the region, and sharing information both up to the State Coordinator and down to the area coordinators.
- Appointing one or more deputy plan coordinators as needed
- Appointing area plan coordinators in the region as needed
- Coordination of intra and interregional mutual aid in times of need

Area Plan Coordinator (Multiple Counties)

Area Plan Coordinators are volunteers selected by the regional coordinator as needed. Their duties include:

- Maintaining a record of current law enforcement organizations in their area, including equipment and personnel that could be used by this plan during an activation
- Providing this record to the Regional Plan Coordinator
- Maintaining situational awareness within the area, and sharing information both up to the Regional Coordinator and down to local agencies
- Coordinating with the Regional Plan Coordinator to identify and move law enforcement resources to respond to requests in times of need.

Local Representation (Local Level)

The Police Chief or Sheriff, or a representative of each local entity providing law enforcement protection, will serve as law enforcement representative to the respective Area Coordinator.

Requests for Assistance

Resource requests may be processed by one of several means:

The agency in need of assistance will make a request to the Area or Regional Law Enforcement Mutual Aid. The Coordinator will attempt to fill the request from that area or region.

Or, the agency in need of assistance will contact the State Mutual Aid Coordinator or the designated mutual aid answering point. The request will be accepted and the Mutual Aid Coordinator will contact the Regional Coordinator(s) who will begin to notify the law enforcement agencies in their region.

On a large scale incident when the State Emergency Operations Center has been activated, the Mutual Aid Coordinator may be notified by the ESF-13 desk (Law Enforcement) that law enforcement resources are requested; the Mutual Aid Coordinator will contact the Regional Coordinator(s) who will begin to notify the law enforcement agencies in their region.

LAW ENFORCEMENT RESPONSE RESOURCE DEFINITIONS

When a request is made for statewide mutual aid activation, all requests should be made using the standard FEMA typing when it is available. The following resource terms include the most common resources requested. It is expected that any agency responding in an assistance role will abide by the recommended resource definitions. It is also understood that any agency that responds and does not meet the resource definition will be sent home.

Law Enforcement Strike Teams: Specified combinations of the same kind and type or resources with common communication and a leader.

A Missouri Law Enforcement Strike Team will be defined as 25 Officers (Police Officers, Sheriff Deputies, Missouri State Highway Patrol Troopers, and/or other Peace Officers), Five Supervisors and One Strike Team Leader.

The Strike Team Leader reports to a Division Supervisor or Group Supervisor and is responsible for performing tactical assignments assigned to the Strike Team. The Leader reports work progress and status of resources, maintain work records on assigned Officers and relays other important information to their supervisor. The Strike Team Leader will maintain the unit / activity log (form ICS-214).

If additional Officers are required, multiple strike teams will be requested and deployed.

Annex C

Missouri Mutual Aid System for EMS Resources

PLAN ORGANIZATION

Emergency medical service in Missouri includes all public and private entities furnishing EMS within the state. In the event of a major event or a state-wide disaster, all EMS agencies become an organizational part of the system.

Bureau of EMS

The State EMS Bureau shall act as the liaison between the EMS Mutual Aid Plan and state government. The State EMS Bureau is also responsible for taking appropriate action on requests for mutual aid received through the plan's Regional Coordinators. The State EMS Bureau designee serves on the State Unified Command when activated.

State Plan Coordinator – Bureau of EMS Official appointed by Bureau Chief

The State Plan Coordinator is responsible for:

- ensuring the plan is functioning appropriately at all times
- ensuring the State EMS Bureau has a current record of EMS organizations, including equipment and personnel, that can be called upon during plan activation
- Maintaining situational awareness within the state, and sharing information with federal, state, regional and local stakeholder partners
- working closely with the Center for Emergency Response and Terrorism (CERT) and the Regional Coordinators to ensure the plan is available for immediate use during emergencies
- participating in an annual review of plan
- maintaining a working relationship with the Statewide Fire Mutual Aid Coordinator in development and execution of the plan

Regional EMS Plan Coordinators

The Regional Plan Coordinators are selected by the EMS Regional Committees. The duties of the regional coordinators are:

- To maintain a record of current EMS organizations in the region, including equipment and personnel (to include ambulance strike team leaders) that could be used by this plan during an activation
- To appoint one or more deputy plan coordinators as needed
- To coordinate EMS Resources from within their regions as requested during plan activation.
- Maintaining situational awareness within the region, and sharing information both up to the State Coordinator and down to the area coordinators.

Where appropriate and upon approval by the Regional EMS Committee, the roles of Regional Fire Mutual Aid Coordinator and Regional EMS Mutual Aid Coordinator may be performed by the same individual.

MEDICAL CONTROL

EMS personnel providing medical care continue to practice under their own agency's medical director protocols and license. Any deviation from those protocols shifts the medical liability to the medical authority that authorizes, prescribes or alters those medical practices.

This will reassure the agencies' medical directors that their medical practices will be upheld, while at the same time allow the paramedics the ability to alter those practices to fit the event under their ICS authority.

PLAN MAINTENANCE

EMS Mutual Aid Plan Committee

The coordination of the Missouri Mutual Aid System for EMS Resources including development, revision, distribution, training and exercising is the responsibility of a committee comprising the organizations listed below. Each organization will designate one person from its membership to participate on the committee. The committee will meet at least annually to review the plan, and the position of Chair will rotate annually among the organizations:

Ambulance District Association of Missouri
Bureau of Emergency Medical Services
Missouri Ambulance Association
Missouri Association of Air Medical Services
Missouri Association of Fire Chiefs
Missouri Emergency Medical Services Association
Missouri Hospital Association
State Advisory Council on Emergency Medical Services – Emergency Management Subcommittee

Test notification of Regional EMS Coordinators and Assistant Coordinators will occur monthly by the CERT Coordinator.

*The EMS work group would like to recognize the Missouri Association of Fire Chiefs for developing the MoSCOPE template that was used to develop the EMS Mutual Aid Plan.

EMS RESPONSE RESOURCE DEFINITIONS

When a request is made for statewide mutual aid activation, all requests must be made using the following resource terms. It is expected that any agency responding in an assistance role will abide by the recommended resource definitions. It is also understood that any agency that responds and does not meet the resource definition will be sent home and deemed ineligible for reimbursement.

ALS Ambulance (ALS) Type I – An ambulance (transporting vehicle) equipped and staffed to provide paramedic advanced life support (ALS) services and transporting at least 2 litter patients. Minimum staffing of two (2) personnel (1 paramedic, 1 EMT). Capable of and trained to function in a Hazardous Material Environment, at least Level B.

ALS Ambulance (ALS) Type II – An ambulance (transporting vehicle) equipped and staffed to provide paramedic advanced life support (ALS) services and transporting at least 2 litter patients. Minimum staffing of two (2) personnel (1 paramedic, 1 EMT).

BLS Ambulance (BLS) Type III – An ambulance (transporting vehicle) equipped and staffed to provide basic life support (BLS) services and transport 2 litter patients. Minimum staffing of two (2) personnel (2 EMTs). Capable of and trained to function in a Hazardous Material Environment, at least Level B.

BLS Ambulance (BLS) Type IV – An ambulance (transporting vehicle) equipped and staffed to provide basic life support (BLS) services and transport 2 litter patients. Minimum staffing of two (2) personnel (2 EMTs).

Air Ambulance (Rotary) Type I – An air ambulance (transporting vehicle) equipped and staffed to provide advanced life support (ALS) services and transporting at least 2 or more litter patients. Minimum staffing of three; 1 pilot, 2 Paramedics or 1 Paramedic and 1 Nurse or Physician). Full SAR including hoist capabilities. ALS Ambulance equipment

Air Ambulance (Rotary) Type II – An air ambulance (transporting vehicle) equipped and staffed to provide advanced life support (ALS) services and transporting at least 2 or more litter patients. Minimum staffing of three; 1 pilot, 2 Paramedics or 1 Paramedic and 1 Nurse or Physician). Night Operations, VFR. Ability to deploy a medical team; MICU equipment (i.e. ventilators & infusion pumps, medications, blood)

Air Ambulance (Rotary) Type III – An air ambulance (transporting vehicle) equipped and staffed to provide advanced life support (ALS) services and transporting 1 litter patient. Minimum staffing of three; 1 pilot, 2 Paramedics or 1 Paramedic and 1 Nurse or Physician). Night Operations, VFR. Ability to deploy a medical team; MICU equipment (i.e. ventilators & infusion pumps, medications, blood)

Annex D
K9 Mutual Aid Plan

K9 MUTUAL AID PLAN ORGANIZATION

Canine detection teams are not universally associated with governmental public safety agencies. There also exists no state agency in Missouri with direct oversight or certifying authority for canine assets.

Whereas the Division of Fire Safety is tasked as the lead agency in the State Emergency Operations Plan for Emergency Support Function (ESF) 9 - Search and Rescue, the plan for mobilizing canine search assets is incorporated into the functions of overall mutual aid coordination. The assets that will be utilized within the plan include canine teams that have provided information to the Division of Fire Safety by submitting a K9 Mutual Aid Registration form and subsequent updates.

RESPONSE TO A REQUEST

When a request is received for canine mutual aid resources, the Regional or State Mutual Aid Coordinator will consult the resource list of registered canine/handler resources, and make a recommendation to the requestor based on criteria applicable to the mission. Considerations may include – but are not limited to – typing and qualifications, geographic distance from the incident, and logistical constraints.

THE FINAL RESOURCE SELECTION IS DETERMINED BY THE REQUESTOR

LIABILITY

As stated in the Basic Plan, liability of all types remains the responsibility of each participating organization/individual; this includes responsibility for the canine and its actions.

Annex E
Coroners Mutual Aid Plan

Plan Organization

Missouri Disaster Response System includes fatality management for the State of Missouri. In the event of a major event or a state-wide disaster, all EMS agencies become an organizational part of the system.

The Missouri Coroners and Medical Examiners Association or MoDRS shall act as the liaison between the Coroners Mutual Aid Plan and state government. MoDRS is also responsible for taking appropriate action on requests for mutual aid received through the plan's Regional Coordinators. MoDRS designee serves on the State Unified Command when activated.

The State Emergency Management Agency is responsible for taking appropriate action on requests for mutual aid received through the plan's Regional XXXXs. SEMA'

The Coroners and Medical Examiners Mutual Aid Plan includes all Coroners and Medical Examiners within the state. In the event of a major emergency or a statewide disaster, all Coroners and Medical Examiners become an organizational part of the system.

The Coroners and Medical Examiners Mutual Aid Plan includes any Coroner or Medical Examiner within the state. In the event of a major emergency or a statewide disaster, Coroners and Medical Examiners participating will become an organizational part of the system.

Lead Agency

The Missouri Disaster Response System (MoDRS) shall act as the liaison between the Coroner or Medical Examiners and state government.

The Missouri Coroners and Medical Examiners Association is also responsible for taking appropriate action on requests for mutual aid received through the Regional Coordinators.

State Plan Coordinator

The State Plan Coordinator shall be designee of the Missouri Coroners and Medical Examiners Association. (Could ask MoDRS to fill this role) The State Plan Coordinator shall have knowledge of, and experience in being a: Coroner or Medical Examiner: coordination of multi-agency responses to emergencies; the fire service; Law Enforcement: and the emergency medical service.

The State Plan Coordinator is responsible for working directly with the Missouri Disaster Response System Fatality Team in:

- Chairing and directing this plan
- Training and exercising this plan
- Maintaining current records of fatality personnel that can be called upon during plan activation
- Activating and coordinating the use of the plan during emergencies.
- Serving as a liaison and interacting with other agencies and disciplines for planning, training, exercise, and response purposes

When the plan is activated, the State Plan Coordinator provides duties as outlined in this plan.

Regional Coordinators

The Regional Plan Coordinators are the Missouri Coroners and Medical Examiners /Regional Troop Coordinators. The Regional Plan Coordinators' terms will coincide with their MCMEA terms. The duties of the regional coordinators are:

- Providing a record of current Coroners and Medical Examiners in the region, including equipment and personnel that could be used by this plan during activation, and a listing of the Chief Executive Officer for each agency (Coroner or M.E).
- Ensuring this record is current
- Providing this record to the State Plan Coordinator
- Appointing area plan coordinators in the region as needed
- Appointing one or more deputy plan coordinators as needed

Activation Process

When the plan is activated the Regional Plan Coordinators provide duties as outlined in this plan.

Resource definitions

RESPONSE RESOURCE

When a request is made for statewide mutual aid activation, all requests must be made using the following resource terms. It is expected that any agency responding in an assistance role will abide by the recommended resource definitions. It is also understood that any agency that responds and does not meet the resource definition will be sent home and deemed ineligible for reimbursement.

APPENDICES

Appendix A

Authorities for Mutual Aid

The following are the current Missouri laws pertaining to **MULTI-DISCIPLINE MUTUAL AID**:

Missouri Revised Statutes Chapter 44 - Civil Defense Section - August 28, 2009

44.090. Mutual-aid agreements--participation in statewide mutual aid system--reimbursement for services provided, benefits.

1. The executive officer of any political subdivision or public safety agency may enter into mutual aid arrangements or agreements with other public and private agencies within and without the state for reciprocal emergency aid. Such arrangements or agreements shall be consistent with the state disaster plan and program and the provisions of section 70.837, RSMO, and section 320.090, RSMO. In time of emergency it shall be the duty of each local organization for emergency management to render assistance in accordance with the provisions of such mutual-aid arrangements or agreements.

2. Any contracts that are agreed upon may provide for compensation from the parties and other terms that are agreeable to the parties and may be for an indefinite period as long as they include a sixty-day cancellation notice provision by either party. The contracts agreed upon may not be entered into for the purpose of reduction of staffing by either party.

3. At the time of significant emergency such as fire, earthquake, flood, tornado, hazardous material incident, terrorist incident, or other such man-made or natural emergency disaster or public safety need anywhere within the state or bordering states, the highest ranking official of any political subdivision or public safety agency or their designee may render aid to or request aid from any jurisdiction, agency, or organization even without written agreement, as long as he or she is in accordance with the policies and procedures set forth by the governing boards of those jurisdictions, agencies, or organizations. A public safety need, as used in this section, shall include any event or incident necessitating mutual-aid assistance from another public safety agency.

4. When responding to mutual aid or emergency aid requests, political subdivisions or public safety agencies shall be subject to all provisions of law as if it were providing service within its own jurisdiction.

5. All political subdivisions and public safety agencies within the state are, upon enactment of this legislation or execution of an agreement, automatically a part of the Missouri statewide mutual aid system. A political subdivision within the state may elect not to participate in the statewide mutual aid system upon enacting an appropriate resolution by its governing body declaring that it elects not to participate in the statewide mutual aid system and by providing a copy of the resolution to the director of the department of public safety or his or her designee.

6. The Missouri mutual aid system shall be administered by the department of public safety, which may authorize any organization to assist in the administration of the mutual aid system. The department of public safety may promulgate rules for this section. Any rule or portion of a rule, as that term is defined in section 536.010, RSMo, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536, RSMo, and, if applicable, section 536.028, RSMo. This section and chapter 536, RSMo, are nonseverable and if any of the powers vested with the general assembly under chapter 536, RSMo, to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2009, shall be invalid and void.

7. For the purpose of this section, public safety agencies shall include, but shall not be limited to, fire service organizations, law enforcement agencies, emergency medical service organizations, public health and medical personnel, emergency management officials, infrastructure departments, public works agencies, and those other agencies, organizations, departments, and specialized emergency response teams that have personnel with

special skills or training that are needed to provide services during an emergency, public safety need, or disaster, declared or undeclared.

8. It shall be the responsibility of each political subdivision and public safety agency to adopt and put into practice the National Incident Management System promulgated by the United States Department of Homeland Security.

9. In the event of a disaster or other public safety need that is beyond the capability of local political subdivisions, the local governing authority or public safety agency having jurisdiction may request assistance under this section.

10. Any entity or individual that holds a license, certificate, or other permit issued by a participating political subdivision, public safety agency, or state shall be deemed licensed, certified, or permitted in the requesting political subdivision or public safety agency's jurisdiction for the duration of the emergency or authorized drill.

11. Reimbursement for services rendered under this section shall be in accordance with any local, state and federal guidelines. Any political subdivision or public safety agency providing assistance shall receive appropriate reimbursement according to those guidelines.

12. Applicable benefits normally available to personnel while performing duties for their jurisdiction are also available to such persons when an injury or death occurs when rendering assistance to another political subdivision or public safety agency under this section. Responders shall be eligible for the same state and federal benefits that may be available to them for line-of-duty deaths or injuries, if such services are otherwise provided for within their jurisdiction.

13. For the purposes of liability, all members of any political subdivision or public safety agency responding under operational control of the requesting political subdivision or a public safety agency are deemed employees of such responding political subdivision or public safety agency and are subject to the liability and workers' compensation provisions provided to them as employees of their respective political subdivision or public safety agency.

70.837. Emergencies--public safety agencies may provide aid to other public safety agencies in state and bordering states.

1. In addition to the emergency aid powers prescribed for municipal fire departments, fire protection associations and volunteer fire protection associations under section 320.090, RSMo, any public safety agency, including, but not limited to, any emergency medical service, political subdivision police department, county sheriff's department, political subdivision emergency management unit or department formed pursuant to chapter 44, RSMo, political subdivision public works department, or public or private contractors of any of such public safety agency may provide assistance to any other public safety agency in the state or in a bordering state at the time of a significant emergency such as a fire, earthquake, flood, tornado, hazardous material incident or other such disaster. The chief or highest ranking officer of the public safety agency may render aid to any requesting agency as long as he is acting in accordance with the policies and procedures set forth by the governing body of that public safety agency.

2. When responding on emergency aid requests, a public safety agency and any public or private contractors of any such public safety agency shall be subject to all provisions of law as if it were providing service within its own jurisdiction.

The following is an additional law as it currently exists in Missouri pertaining specifically to mutual aid for **FIRE RESOURCES:**

320.090. Emergency services, contracts for mutual aid operative in disasters - requirements.

1. Any municipal fire department, fire protection district or volunteer fire protection association, as defined by section 320.300, may enter into contracts providing for mutual aid regarding emergency services provided by such fire department, fire protection district or volunteer fire protection association. The contracts that are agreed upon may provide for compensation from the parties and other terms that are agreeable to the parties and may be for an indefinite period as long as they include a sixty-day cancellation notice by either party. The contracts agreed upon may not be entered into for the purpose of reduction of manpower by either party.
2. Any municipal fire department, fire protection association or volunteer fire protection association may provide assistance to any other municipal fire department, fire protection district or volunteer fire protection association in the state at the time of a significant emergency such as a fire, earthquake, flood, tornado, hazardous material incident or other such disaster. The chief or highest ranking fire officer may render aid to any requesting fire department, fire protection district or volunteer fire protection association as long as he is acting in accordance with the policies and procedures set forth by the governing board of that governmental entity or association.
3. When responding on mutual aid or emergency aid requests, the fire department, fire protection district, or volunteer fire association shall be subject to all provisions of law as if it were providing service within its own jurisdiction.

The following is an additional law as it currently exists in Missouri pertaining specifically to mutual aid for
LAW ENFORCEMENT RESOURCES:

**Authority of peace officers to respond to emergencies outside jurisdiction--definitions--
authority of certain peace officers--authority of federal law enforcement officers.**

70.820. 1. Any law enforcement officer as defined by section 556.061, full-time peace officer as defined by section 590.100, of a county or a full-time peace officer of any political subdivision who is certified pursuant to chapter 590, or a chief executive officer as defined by section 590.100, of a county or any political subdivision, certified pursuant to chapter 590 shall have the authority to respond to an emergency situation outside the boundaries of the political subdivision from which such peace officer's authority is derived. This section does not apply to any peace officer certified pursuant to subsection 6 of section 590.105.

2. Before a peace officer shall have the authority to respond to an emergency situation outside the boundaries of the political subdivision from which the officer's authority is derived pursuant to subsection 1 of this section, the authority shall be first authorized by ordinance, order, or other ruling by the governing body of the political subdivision from which the officer derives such officer's authority and by the governing body of the political subdivision in which the emergency situation is alleged to be occurring and by the board of police established by section 84.020 or by the board of police commissioners established by section 84.350 if the officer derives his authority from either board or if the emergency situation is alleged to be occurring within the jurisdiction of either board.

3. As used in this section, "emergency situation" means any situation in which the law enforcement officer has a reasonable belief that a crime is about to be committed, is being committed, or has been committed involving injury or threat of injury to any person, property, or governmental interest and such officer's response is reasonably necessary to prevent or end such emergency situation or mitigate the likelihood of injury involved in such emergency situation. The determination of the existence of any emergency situation shall be in the discretion of the officer making the response or in the discretion of an officer or governmental officer of the political subdivision in which the emergency situation is alleged to be occurring.

4. As used in this section, "response" shall mean to take any and all action which the officer may lawfully take as if exercising his powers within his own jurisdiction.

5. In addition to the emergency response powers prescribed in subsection 1 of this section, any peace officer of a county of the first classification with a charter form of government, or any peace officer of any political subdivision within any county of the first classification with a charter form of government, or any peace officer of any city not within a county, who has completed the basic peace training program pursuant to chapter 590 may arrest persons who violate any provision of state law within the boundaries of any county of the first classification or of any city not within a county.

6. In addition to the powers prescribed in subsections 1 and 5 of this section, section 544.216, and any other arrest powers, a law enforcement officer or federal law enforcement officer as defined in subsection 8 of this section, may arrest on view, and without a warrant, at any place within this state, any person the officer sees asserting physical force or using forcible compulsion for the purpose of causing or creating a substantial risk of death or serious physical injury to any person or any person the officer sees committing a dangerous felony as defined in section 556.061. Any such action shall be deemed to be within the scope of the officer's employment.

7. To provide assistance to law enforcement officers, a federal law enforcement officer shall have the same authority as a law enforcement officer where:

(1) The federal law enforcement officer is rendering assistance at the request of any law enforcement officer of this state; or

(2) The federal law enforcement officer is effecting an arrest or providing assistance as part of a bona fide task force or joint investigation in which law enforcement officers of this state are participating.

8. A federal law enforcement officer is a person employed by the United States government who is empowered to effect an arrest with or without a warrant for violation of the United States Code and who is authorized to carry a firearm in the performance of the person's official duties as a federal law enforcement officer and includes a law enforcement officer as defined in section 556.061.

(L. 1986 S.B. 450 § 19, A.L. 1987 S.B. 372, A.L. 1994 S.B. 475, A.L. 1997 H.B. 69 & 179 & H.B. 669)

Political subdivisions and boards of police commissioners of St. Louis and Kansas City may contract to provide police services for other political subdivisions--powers of arrest and immunity--definitions.

70.815. 1. As used in this section:

(1) "Governing body" means the board, body, council, or persons in which the powers of a political subdivision as a body corporate, or otherwise, are vested;

(2) "Political subdivision" means any agency or unit of this state empowered by law to maintain a law enforcement agency.

2. The governing body of any political subdivision may by ordinance, order or other ruling enter into a contract or agreement with any other political subdivision, with the board of police established by section 84.020 or with the board of police commissioners established by section 84.350 for the provision of police services by one political subdivision to another on request. The scope of the agreement may be general or specific, and may or may not provide for compensation for such services. Officers providing police services in another jurisdiction pursuant to such an agreement shall have the same powers of arrest as officers of the requesting political subdivision, and shall have the same immunity as if acting within their own jurisdiction.

(L. 1985 H.B. 460 § 1, A.L. 1987 S.B. 372)

Immunities and liabilities of officers.

70.290. All officers acting under the authority of the municipality or political subdivision pursuant to such agreement or cooperative action under the provisions of sections 70.210 to 70.320 shall be deemed to be acting for a governmental purpose and shall enjoy all the immunities and shall be subject to the same liabilities which they would have within their own territorial limits.

(L. 1947 V. I p. 401 § 7403g)

Mutual aid agreement with Kansas--definitions--requests for assistance--immunity--certification by director, notice to revisor of statutes.

44.095. 1. As used in this section, the following terms mean:

(1) "Critical incident", an incident that could result in serious physical injury or loss of life;

(2) "Kansas border counties", the counties of Johnson, Leavenworth, Miami, and Wyandotte;

(3) "Law enforcement mutual aid region", the nine counties of the Kansas City Metropolitan area as identified by the Mid-America Regional Council (MARC). Those counties include Kansas border counties and Missouri border counties as defined in this section;

(4) "Missouri border counties", the counties of Platte, Clay, Ray, Jackson and Cass.

2. All law enforcement officers in the law enforcement mutual aid region shall be permitted in critical incidents to respond to lawful requests for aid in any other jurisdiction in the law enforcement mutual aid region.

3. The on-scene incident commander as defined by the National Incident Management System shall have the authority to make a request for assistance in a critical incident and shall be responsible for on-scene management until command authority is transferred to another person.

4. In the event that an officer makes an arrest or apprehension outside his or her home state, the offender shall be delivered to the first officer who is commissioned in the jurisdiction in which the arrest was made.

5. For the purposes of liability, all members of any political subdivision or public safety agency responding under operational control of the requesting political subdivision or public safety agency are deemed employees of such responding political subdivision or public safety agency and are subject to the liability and workers' compensation provisions provided to them as employees of their respective political subdivision or public safety agency. Qualified immunity, sovereign immunity, official immunity, and the public duty rule shall apply to the provisions of this section as interpreted by the federal and state courts of the responding agency.

*6. If the director of the Missouri department of public safety determines that the state of Kansas has enacted legislation or the governor of Kansas has issued an executive order or similar action that permits Kansas border counties to enter into a similar mutual-aid agreement as described under this section, then the director shall execute and deliver to the governor, the speaker of the house of representatives, and the president pro tempore of the senate a written certification of such determination. Upon the execution and delivery of such written certification and the parties receiving such certification providing a unanimous written affirmation, the provisions of this section shall be effective unless otherwise provided by law.

7. The director of the Missouri department of public safety shall notify the revisor of statutes of any changes that would render the provisions of this section effective.

(L. 2014 S.B. 852)

*Contingent effective date

The following are additional laws as they currently exist in Missouri pertaining specifically to mutual aid for **EMERGENCY MEDICAL RESOURCES:**

190.107. Contracts for mutual aid services

1. Any municipally operated ambulance service, ambulance district, fire protection district that provides ambulance service or any other ambulance service may enter into contracts providing for mutual aid services provided by such ambulance service. The contracts that are agreed upon may provide for compensation from the parties and other terms that are agreeable to the parties and may be for an indefinite period as long as they include a minimum of a sixty-day cancellation notice by either party.
2. Any municipally operated ambulance service, ambulance district, fire protection district that provides ambulance service or any other ambulance service may provide assistance to any other ambulance service in the state that requests it, at the time of an emergency, major catastrophe or any other unforeseen event or series of events which jeopardizes the ability of the local ambulance service to promptly respond to emergencies.
3. When responding on mutual aid or emergency aid requests, the ambulance service shall be subject to all provisions of law as if it were providing service within its own jurisdiction.
4. Mutual-aid contracts may be agreed to between ambulance services in the states neighboring Missouri and ambulance services in the state of Missouri in the exact same manner as contracts between ambulance services within the state of Missouri.

44.045. Health care professionals may be deployed during a state of emergency--immunity from liability, when--release of certain confidential information permitted, when.

1. Subject to approval by the state emergency management agency during an emergency declared by the governor, any health care provider licensed, registered, or certified in this state or any state who agrees to be so deployed as provided in this section may be deployed to provide care as necessitated by the emergency, including care necessitated by mutual aid agreements between political subdivisions and other public and private entities under section 44.090. During an emergency declared by the governor, health care providers deployed by the governor or any state agency shall not be liable for any civil damages or administrative sanctions for any failure, in the delivery of health care necessitated by the emergency during deployment, to exercise the skill and learning of an ordinarily careful health care provider in similar circumstances, but shall be liable for damages due to willful and wanton acts or omissions in rendering such care.
2. In a declared state of emergency, the department of health and senior services and the division of professional registration within the department of insurance, financial institutions and professional registration may release otherwise confidential contact and licensure, registration, or certification information relating to health care professionals to state, local, and private agencies to facilitate deployment.

The following are additional laws as they currently exist in Missouri pertaining specifically to mutual aid for **CORONERS:**

Special deputy coroner or special deputy medical examiner may be appointed, when--record-keeping requirements.

58.206. 1. The coroner or medical examiner of any county or any city not within a county may, for a period not to exceed thirty days, appoint a special deputy coroner or special deputy medical examiner in the event of any natural disaster, mass casualty, or other emergency situation. Such special deputy coroners or medical examiners shall be the coroner or medical examiner or deputy coroner or medical examiner of any other county in the state who is willing to serve under this section. Any special deputy coroner or medical examiner appointed under this section shall be directly supervised by the coroner or medical examiner making the appointment, and shall not receive any compensation for services rendered, but shall be reimbursed for all actual and necessary expenses incurred in the performance of official duties under this section. Such expenses shall be paid upon the receipt of an itemized record of such expenses approved by the coroner or medical examiner making the appointment.

2. The coroner or medical examiner making the appointment shall keep accurate records of all persons appointed under this section, and such records shall include the full name, address, date of birth, date of appointment, and date released from the appointment of the special deputy coroner or medical examiner appointed under this section. The coroner or medical examiner making an appointment under this section shall file such records with the county clerk in such coroner's or medical examiner's county.

(L. 2006 H.B. 1222 § 58.217)

Appendix B

Missouri Emergency Response Plan Region Identification

Missouri is divided into 9 planning and response regions, with regional mutual aid coordinators assigned to each. Regional coordinators further subdivide the region and assign area coordinators as needed. The various discipline coordinators are found in the MoSCOPE Points of Contact List. The following counties make up each region:

REGION A

Bates
Benton
Carroll
Cass
Clay
Henry
Jackson
Johnson
Lafayette
Pettis
Platte
Ray
Saline

REGION B

Adair
Chariton
Clark
Knox
Lewis
Linn
Macon
Marion
Monroe
Putnam
Ralls
Randolph
Schuyler
Scotland
Shelby
Sullivan

REGION C

Franklin
Jefferson
Lincoln
Perry
Pike
St Charles
St. Francois
St. Louis
St. Louis City
Ste. Genevieve

Warren
Washington

REGION D

Barry
Barton
Cedar
Christian
Dade
Dallas
Greene
Hickory
Jasper
Lawrence
McDonald
Newton
Polk
St. Clair
Stone
Taney
Vernon
Webster

REGION E

Bollinger
Butler
Cape Girardeau

MISSOURI EMERGENCY RESPONSE PLAN REGION MAP

Appendix C

State Emergency Operations Center and Emergency Support Functions (ESFs)

This plan coordinates with the State Emergency Operations Center when activated. The mutual aid coordinators for each discipline - or other designee of the organizations representing the MoSCOPE plan - will serve as liaisons to the State Unified Command when required. Each discipline represented in this plan is associated with one or more of the ESFs listed below:

ESF 1 – Transportation

ESF 2 – Communications

ESF 3 – Public Works

ESF 4 – Firefighting

ESF 5 – Emergency Management

ESF 6 – Mass Care/Housing/Human Service

ESF 7 – Logistics/Resource Support

ESF 8 – Health and Medical

ESF 9 – Search & Rescue

ESF 10 – Hazardous Materials/Radiological

ESF 11 – Agriculture

ESF 12 – Energy

ESF 13 – Public Safety and Security

ESF 14 – Community Recover, Mitigation, and Economic Stabilization

ESF 15 – External Affairs

ESF 16 – Military

ESF 17 – Pet Sheltering/Care

Appendix D

Communications

The key to the successful operation of the various resources into a region will depend heavily upon the ability of these agencies to communicate effectively among them. It is reasonable to assume that in the wake of a major disaster, the existing communication system in the affected area may be inoperable or severely compromised.

Agencies participating in the statewide mutual aid plan will be required to have the following frequencies available when they respond.

For statewide activations, the frequencies listed below may be utilized and referred to with the appropriate designations.

Note: All communications on these channels and talk groups shall be in the clear. Encryption is not allowed.

Name	TX/RX	PL Decode	PL Encode	Use
VFIRE21	154.2800	N/A	156.7	Fire Mutual Aid Calling

Missouri Statewide Interoperable Network (MOSWIN):

Communications within an incident may also be assigned to one or more MOSWIN talk groups. MOSWIN P25 VHF digital trunked interoperable talk groups may be used by emergency responders throughout the State of Missouri for communications for everyday mutual aid response in the event of a major incident, or during a planned local, regional or statewide event.

These talk groups provide communications capabilities to command and operational personnel that are responsible for incidents requiring multiple jurisdictions and assets.

The following guidelines apply when using MOSWIN per the **MOSWIN Interoperable Talk Group Standard Operating Procedures:**

5.1 The incident commander (IC) should request an incident be moved to a regional talk group from County All County All serves as the calling talk group. Moving to a regional I/O will allow continuing communications during the emergency incident. *

5.2 It will be the responsibility of the incident commander (IC) to collaborate with their primary dispatch center to arrange the movement of the incident to a Regional I/O. It shall be the responsibility of the primary dispatch center to ensure that the regional talk group(s) is available for use.

5.3 The incident commander (IC) will have the responsibility to establish the COMMAND CHANNEL for the incident. The IC will then assign the Region Fire TAC, Region LAW TAC, or Region Emergency Medical Service (EMS) TAC as the working incident talk group or on scene talk group between units

5.3.1 While enroute, outside resources shall communicate on the Region Call or Statewide Call. The resource shall utilize this talk group to communicate with the IC, obtain directions, check in to the incident, and be directed to the appropriate talk group as needed.

**See Missouri Interoperable Field Operations Guide and contact MOSWIN systems administration.*

As agreed upon by representation from each mutual aid discipline:

Mutual aid coordination *within* each discipline will occur on the regional discipline specific talk group #3.

As outline in NIMS, common terminology for all voice transmissions must be utilized.

Appendix E

Supply Checklist

This is a recommended list of items to consider when deploying.

- Food/Water
- Full uniform and discipline specific gear
- Infectious Disease Control Kit (gloves, goggles, pocket mask etc.)
- Shirts
- Sweatshirts
- Pants
- Socks
- Boots
- Jackets
- Underclothing
- Personal toiletry (soap, shampoo, deodorant, toilet paper, shaving kit, towels)
- Medicines
- Bed roll, pillow
- Eye glasses/contacts
- Money
- Identification
- Sunscreen

In addition, each organization sending equipment must provide means for paying for fuel.

Appendix F

Air Medical Services

This appendix to the MO Mutual Aid System for EMS Resources shall provide for the systematic mobilization, organization, and coordination of Air Medical (AM) resources from throughout the State of Missouri to assist the State EOC in the event of a natural or manmade disaster. AM resources can provide safe rapid transport for patients directly from a scene or a health care facility to an approved appropriate receiving facility.

Coordination

The coordination of the Plan, including its development, revision, distribution, training, and implementation is the responsibility of the Missouri Air Medical Association (MOAAMS). The Air Medical Disaster Response Committee will oversee this process. The committee will be composed of the following:

MOAAMS President
MOAAMS Sec/Treasure
Regional Deputy Coordinators

The Presidents of MOAAMS or Committee Chair can add to this membership as deemed for the success of the Plan.

President OF MOAAMS (or Designee)

Position Responsibilities: Overall coordination and implementation of the Disaster Response Plan through the Deputy Coordinator (Air).

Actions:

- Helps coordinate each regional Deputy Coordinator (Air).
- Appoints two (2) alternates for the State Regional Disaster Coordinator.
- Notifies the MoSCOPE annually with the identity of the AM Deputy Coordinator (Air).
- Seeks representatives from DOH and the Division of Emergency Management for the Disaster Planning Committee as deemed necessary by the coordinator.
- Appoints other members to assist the Disaster Planning Committee as deemed necessary by the coordinator.
- Coordinates AM Plan with other Statewide Agency Plans.
- Communicates with Regional Deputy Coordinator (Air) on all matters affecting Statewide Disaster Planning or the Model ICS Operating procedures as put forth by MOAAMS.
- Notifies all MOAAMS Board Members of Plan activation.
- Assist Deputy Coordinator (Air) with Plan implementation and management as necessary.
- Contacts adjacent State Associations to coordinate response.
- Attends and facilitates critiques of the Plan.

Regional Air Medical Deputy Coordinator

Position Responsibility: Commands disaster assistance operations at the affected regional level in conjunction with local area Program Managers and Program Managers assigned to the task. A Regional Deputy Coordinator (Air) will be identified for each region in Missouri to coordinate with the EMS Mutual Regional Mutual Aid Coordinator.

Actions:

- Coordinated annually by the President of the MOAAMS.
- Identifies at least one (1) alternate for the region/state.
- Appoints AM personnel and other essential personnel within the region to serve as Operations, Plans, Logistic, Administration, EMS Liaison, Public information and their alternates as well as other positions deemed necessary to fill the incident, management position to the disaster.
- Serves as AM Coordinator in the affected Region(s). Uses the MOAAMS President as liaison for assistance outside of the Region.
- One Regional Deputy Coordinator serves as member of the MoSCOPE Planning Committee.
- Interacts with various County Emergency Operations Centers in the region.
- Identifies mobilization areas for disaster assistance. Updates this information pre and post event.
- Coordinates AM aid assistance into the disaster area.
- Pre-determine equipment, personnel, etc. that are available for response.
- Communicates with the State (EOC) Emergency Operations Center, ESF - 8.
- Responsible for training, staff, functional leaders, and alternates. Insures Air Medical knowledge of all participants
- Maintains access to records and inventories of equipment, personnel, etc. in Region. (See data document in appendix)

Requests

All transports must be approved by the State. Typically most transporting agencies have the ability to transport one to two patients at a time depending on clinical and air nautical criteria. Requests from the State should meet the following guidelines if at all possible:

- Interfacility Transfer
 - A sending physician who provides authorization for transfer.
 - A receiving physician and services capable to manage the clinical situation at the receiving facility
- Scene Transfer
 - Public Safety organization arranging and assisting in the transfer.
 - A receiving physician and services capable to manage the clinical situation
- Transport medical direction and protocols to support the transfer.
- Equipment necessary to continue the care of the patient.
- Transport pursuant to applicable Federal Aviation Regulations.

Note: Rescue operations involving hoisting or the loading and unloading of the aircraft during flight are generally not within the capabilities of air medical transport units.

Tornado Response

The most successful tornado response will be well planned, initiated at the most appropriate time and involve a predetermined response group. Air medical programs are invited to offer support but respond only upon appropriate command request.

In the case of approaching tornados the decision to evacuate is critical. Preceding the storm will be weather not conducive to air ambulance operations. Prediction of when conditions are not suitable for operations is difficult to call. Generally, as soon as possible after a tornado watch is declared for a particular location helicopter transport should begin with a goal of completing operations as soon as possible after the tornado warning is declared.

Reimbursement

Insure FEMA authorization number is provided to the responding agency prior to liftoff. ESF 8 of the State Emergency Operations Center provides this number during activation.

Communication

- Air to Air Communication 123.025
- Air to Ground Communication (Air Secondary) 155.340 (CTCSS Hz 167.9 Transmit and Receive)

Call List

- Accept request for transport
- All available services offering service on a first come first serve basis.
- Establish email list for advising of availability. Include type of equipment, number and qualifications of personnel, duration of volunteer services.

Appendix G

Law Enforcement Mutual Aid Quick Reference Guide

Mutual Aid Defined

Mutual aid is the voluntary sharing of personnel and resources when an affected jurisdiction has expended, or does not have, the resources needed to effectively respond to an incident. The necessary resources are then requested by that affected jurisdiction. Mutual aid may be executed on a local, countywide, regional, statewide, and interstate basis.

Generally, there is no reimbursement for providing mutual aid.

Authority

The Law Enforcement Mutual Aid System derives its authority from the RsMO Chapter 44.

Key Contacts

Missouri Police Chief's Association	573-636-5444
Missouri Sheriffs' Association	573-635-5925
St. Louis FBI	314-589-2500
State Emergency Management Agency	573-526-9100
State Mutual Aid Coordinator	573-821-0937
Kansas City FBI	816-512-8200
Missouri State Highway Patrol	573-751-3313

Mutual Aid Process

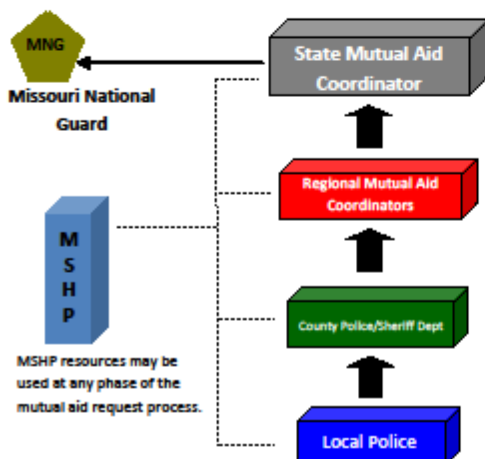

Local - Chief of Police determines significant event is beyond department resources, requests mutual aid assistance from the county.

County (Operational Area) - If event is beyond the resource capability of the county law enforcement agencies, the county requests mutual aid from Regional Mutual Aid Coordinator.

Region - The designated Regional Mutual Aid Coordinators fulfill mutual aid requests from other operational areas and their respective law enforcement resources.

State - If the law enforcement resources within the impacted region are not sufficient, the Regional Mutual Aid Coordinator requests additional mutual aid assistance from the State Mutual Aid Coordinator.

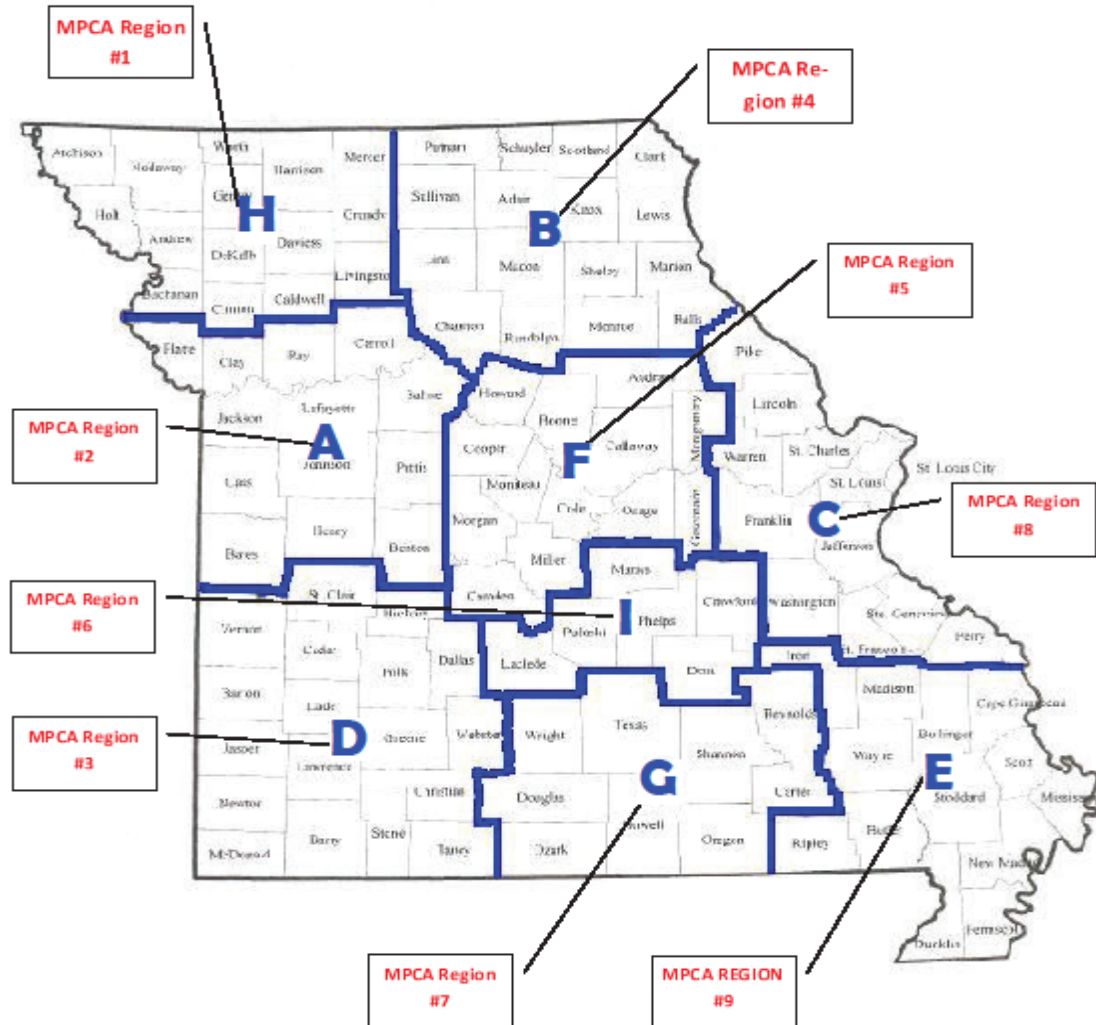

Channels for Requesting Mutual Aid

Mutual Aid Considerations

- † State declaration of emergency not necessary to request and provide mutual aid.
- † Use of National Guard resources for law enforcement mutual aid requires an order by the Governor. National Guard resources are to be used *only* when local and state law enforcement resources are committed to maximum.
- † No jurisdiction is required to unnecessarily deplete their own personnel, equipment, and capabilities in order to provide mutual aid. It is generally accepted that a reasonable response will consist of up to 50% of available on-duty uniformed officers.
- † Planned and scheduled community events do not meet the criteria for mutual aid and therefore, should include costs for additional public safety if required. However, mutual aid may be necessary in extraordinary situations.
- † State Mutual Aid Coordinator will assign mutual aid mission numbers in order to track and coordinate resources. The mission number will be necessary for access into the incident.
- † Out of State mutual aid is coordinated through MO State Emergency Management Agency and the Emergency Management Assistance Compact (EMAC) cooperatively with the State Mutual Aid Coordinator.
- † Other state law enforcement agencies can be tasked to assist in providing mutual aid.

Missouri Police Chief Association regional alignment with Mutual Aid Response Regions

The map above shows the alignment between the MPCA Regions and the Emergency Response Regions.

Appendix J
Mutual Aid Agreement [TEMPLATE]

WHEREAS, the jurisdictions/departments of _____ and _____ have deemed it to be critical to the safe, efficient, and expeditious recovery of their community from the effects of the disaster occurring on _____, and as a result of the implementation of the State Fire Mutual Aid System, enter into this supplemental mutual aid agreement to provide the personnel, equipment, and materials necessary to conduct required life safety response actions; and,

WHEREAS, each party entering into this compact recognizes that this disaster event transcends political jurisdictional boundaries and that intergovernmental coordination is essential in managing this emergency; and,

WHEREAS, each jurisdiction is responsible for responding to an emergency situation and using all available resources to protect the health, safety, and property of the citizens of the affected jurisdiction(s).

WHEREAS, it is desirable and necessary that all available resources of those jurisdictions and their various departments and agencies be made available to respond to this emergency; and,

WHEREAS, Missouri law provides for the execution of such mutual aid agreements among political subdivisions of the State, public safety agencies, fire departments, fire protection districts, and/or volunteer fire protection associations, as authorized by the respective jurisdiction's elected body.

NOW, THEREFORE, THE MENTIONED JURISDICTIONS DO OFFICIALLY AGREE AS FOLLOWS:

1. _____ (Responding Agency) agrees to assist _____ (Requesting Agency) by furnishing the necessary equipment, personnel, and/or materials to supplement the requesting agencies resources in conducting disaster related emergency protective actions. It is understood that no party shall be required to unduly deplete its resources in furnishing such assistance. If the Responder is unable to meet the Requestor's need for resources, the Requestor will be advised immediately.
2. This agreement supplements the existing State Fire Mutual System and that all such relevant processes and procedures identified in that system will be used by all parties to this agreement.
3. It shall be the responsibility of each participating jurisdiction to formulate procedural plans and programs for inter-jurisdiction cooperation and for the effective mobilization and de-mobilization of its resources in the performance of these emergency protective measures.

4. In formulating such plans, and in carrying them out, the party jurisdictions, insofar as practical, shall:
 - a. Protect and assure uninterrupted delivery of services, medicines, water, food, energy and fuel, search and rescue, and/or critical lifeline equipment, services, and resources, both human and material.
 - b. Provide, to the extent authorized by law, for temporary suspension of any local statutes so that the jurisdiction requested to render mutual aid can take action necessary to provide/make available the resources covered by this agreement in accordance with the terms hereof and the State Fire Mutual Aid System; provided that it is understood that the jurisdiction rendering aid may withhold resources to the extent necessary to provide reasonable protection for themselves.
5. Documentation of hours worked, equipment used, and materials expended will be maintained by the Responder and provided to the Requestor as required for documentation of eligible expenses and reimbursement. Reimbursement rates will be as identified in Attachment A to this supplemental agreement.
6. It is expressly understood that any mutual aid extended under this agreement is furnished in accordance with RSMo Chapter 44 Section 44.090, Chapter 70 Section 70.837, Chapter 320 Section 320.090, and other applicable provisions of law. Management of an incident shall remain with the jurisdiction in which the incident occurred. Agencies providing assistance shall assign an agency representative to report to the official in charge/incident commander. The official in charge/incident commander may mission assign responding mutual assistance agencies, but each agency's representative retains supervision of their personnel and resources and may withdraw their resources at any time.
7. The provisions of this agreement shall not limit or restrict the duties and obligations of the State of Missouri to respond to emergencies within the jurisdictional confines of parties to this agreement or for any other jurisdiction that may be impacted by a disaster.
8. The Responder may assume in whole or in part such loss, damage, expense, or other cost, or may loan such equipment or donate such services to the Requestor without charge or cost. Any two or more party jurisdictions may enter into supplementary agreements establishing a different allocation of costs among those jurisdictions.
9. Each party jurisdiction shall provide for the payment of compensation and death benefits to injured members of the emergency forces of that jurisdiction and representatives of deceased members of such forces in case such members sustain injuries or die as a result of rendering aid pursuant to this compact, in the same manner and on the same terms as if the injury or death were sustained within their own jurisdiction.
10. Parties to this agreement will request that personnel and equipment not under their direct authority honor the conditions of this agreement and support calls for assistance in response to a disaster.

11. The Requestor shall indemnify, defend, and hold blameless the Responder arising from the performance of duties in response to an emergency incident pursuant to this agreement. Officers or employees of a party jurisdiction rendering aid in another jurisdiction pursuant to this agreement shall be considered agents of the Requestor for tort liability and immunity purposes; and no party jurisdiction or its officers or employees rendering aid in another jurisdiction pursuant to this agreement shall be liable on account of any act or omission in good faith on the part of such forces while so engaged or on account of the maintenance or use of any equipment or supplies in connection therewith. Good faith in this article shall not include willful misconduct, gross negligence, or recklessness.

12. This agreement shall become effective as to each party when executed by the party, and shall remain operative and effective as between each and every party that has heretofore or hereafter executed this agreement, until the party terminates participation in this agreement. Execution of this agreement shall be as follows:
