---

**STOP THE SPREAD OF GERMS**

Help prevent the spread of respiratory diseases like COVID-19.

Stay at least 6 feet (about 2 arms’ length) from other people.

6 ft

---

**Cloth Face Covering Do’s & Don’ts:**

**DO:**
- Make sure you can breathe through it
- Wear it whenever going out in public
- Make sure it covers your nose and mouth
- Wash after using

**DON’T:**
- Use on children under age 2
- Use surgical masks or other personal protective equipment (PPE) intended for healthcare workers

cdc.gov/coronavirus
How to Select, Wear, and Clean Your Mask

CDC recommends that you wear masks in public settings around people who don’t live in your household and when you can’t stay 6 feet away from others. Masks help stop the spread of COVID-19 to others.

- Wear masks with two or more layers to stop the spread of COVID-19
- Wear the mask over your nose and mouth and secure it under your chin
- Masks should be worn by people two years and older
- Masks should NOT be worn by children younger than two, people who have trouble breathing, or people who cannot remove the mask without assistance. Do NOT wear masks intended for healthcare workers, for example, N95 respirators.

Special Situations: Children

- If you are able, find a mask that is made for children
- If you can’t find a mask made for children, check to be sure the mask fits snugly over the nose and mouth and under the chin
- Do NOT put on children younger than 2 years old

Caution: Gaiters & Face Shields

- Evaluation is on-going but effectiveness is unknown at this time
- Evaluation is on-going but effectiveness is unknown at this time

DO choose masks that

- Have two or more layers of washable, breathable fabric
- Completely cover your nose and mouth
- Fit snugly against the sides of your face and don’t have gaps

DO NOT choose masks that

- Are made of fabric that makes it hard to breathe, for example, vinyl
- Have exhalation valves or vents, which allow virus particles to escape
- Are intended for healthcare workers, including N95 respirators or surgical masks
Summer-like weather returns to the Missouri Ozarks this week, with highs in the 80s on a daily basis.

Warm and dry conditions are expected the rest of the week with high temperatures potentially reaching the 80s each day under mostly sunny skies.
A warm rest of the work week is expected, with max temps 10 to 15 degrees above normal. The warmest day will be Wednesday, where some locations will approach 90 degrees and potentially threaten records. Rain chances will remain low through the period.

Expect warm and sunny weather through the end of the work week. The remnants of Hurricane Delta could bring some rain showers late Friday into Saturday.
A beautiful Fall day is on tap across the region today. Highs ranging from 71 to 78 degrees with breezy westerly winds of 10 to 20 MPH.

The probability for widespread hazardous weather is low.
