MISSOURI STATE EMERGENCY MANAGEMENT AGENCY AUDIT COMPLIANCE REQUIREMENTS

As a result of recent decisions by the U.S. Department of Homeland Security Office of the Inspector General (OIG) it has become necessary to obtain additional certification of each Public Assistance Applicants' understanding of federal requirements associated with the receipt and expending of federal grants.

(IMPORTANT: Approval of your procurement procedures, cost documentation, source documents, etc., by representatives of the Federal Emergency Management Agency (FEMA) does NOT provide any assurance that the U.S. Department of Homeland Security OIG auditors will not require that you return disaster grant funds should they (OIG) disagree with those procedures.)

These procedures have been implemented as a direct result of U.S. DHS OIG audit reports and to prevent the potentially devastating effects of having to return federal funds following a disaster.

The State Emergency Management Agency reserves the right, as the recipient for federal disaster funds, to conduct periodic records reviews of any Applicant's records and to cease payments to any Applicant found to be non-compliant with these requirements.

The following items must be read, understood, and initialed by each Applicant BEFORE signing the certification. NO payments will be made on any (project worksheet) sub-award until this and all other required documents/forms have been completed, signed, and provided to Missouri SEMA.

The Applicant's accounting practices must identify the application of federal funds or account for costs by specific project as required by federal regulations and FEMA guidelines. The Code of Federal Regulations (CFR), 2 CFR 200.302, states that Applicants must document and maintain records that adequately identify the source and application of funds for financially assisted activities.

Effective control and accountability must be maintained for all award and sub-award cash, real and personal property, and other assets.

The Applicant must establish a project file (or site file for multiple-site projects) containing the corresponding project and all documentation pertaining to the project (or site).

The Applicant must follow the same or more stringent internal controls when accounting for and expending disaster grant funds as it does for its annual operating revenue.

The Applicant must maintain documentation by project, reconcile source documentation to invoices, and determine the validity of all project invoices before filing claims.

The Applicant must follow federal procurement standards as set forth in Code of Federal Regulations (CFR) 44 and 2 CFR Part 200 and should be familiar with the requirements of Code of Federal Regulation (2 CFR Part 200 and 44 CFR). Particularly important is Part 206 (Federal Disaster Assistance for Disasters Declared on or After November 23, 1988)

Please initial to certify that you have read and understand the conditions of this program. _____

Unless specified by the Federal agency, the recipient or subrecipient may exercise judgment in determining what number is adequate.

200.320 (b) (1) This is a procurement method in which bids are publicly solicited through an invitation and a firm fixed-price contract (lump sum or unit price) is awarded to the responsible bidder whose bid conforms with all the material terms and conditions of the invitation and is the lowest in price. 200.321 (b) Such consideration means:

- (1) These business types are included on solicitation lists;
- (2) These business types are solicited whenever they are deemed eligible as potential sources;
- (3) Dividing procurement transactions into separate procurements to permit maximum participation by these business types;
- (4) Establishing delivery schedules (for example, the percentage of an order to be delivered by a given date of each month) that encourage participation by these business types;
- (5) Utilizing organizations such as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce; and
- (6) Requiring a contractor under a Federal award to apply this section to subcontracts.

200.322 (a) The recipient or subrecipient should, to the greatest extent practicable and consistent with law, provide a preference for the purchase, acquisition, or use of goods, products, or materials produced in the United States (including but not limited to iron, aluminum, steel, cement, and other manufactured products). The requirements of this section must be included in all subawards, contracts, and purchase orders under Federal awards.
