

# NEED CEU CREDITS?

JOIN US FOR A 1-HOUR LUNCH & LEARN  
ON MARCH 15, 2018 AT 11:30AM & RECEIVE 1 CEU CREDIT

## Course

Floodplain Design, Construction, and Impact on Flood Insurance

**Summary:** This course will clarify the regulations, codes, and standards as they relate to sustaining foundations in flood hazard areas, as well as analyze the role of building compliance in lowering flood insurance rates and what mitigation solutions are available to existing structures.

In addition, this course will focus on the potential hazards to buildings located in floodplains, the differences between wet floodproofing and dry floodproofing techniques and when they are applicable, and the differences between engineered and non-engineered flood openings and their ability to ensure resilient structures.

## SEMA Training Facility

754 MoDOT Dr., Jefferson City, Missouri 65109
