CEU/PDU/PDH: 6 – CFM, 6 – CFS, 6 – PLS (MO APELSLA); *Depending on state/agency reciprocity/applicability:*
6 – PE, 6 – BO/BI, 6 – AICP, 0.6 – ICC

INSTRUCTOR: Del Schwalls, PE*, CFM | President, Schwalls Consulting LLC
(*PE in FL, AL, GA, SC)

COURSE DESCRIPTION:

This course will:

- Provide detailed training on completing a FEMA Elevation Certificate (EC) accurately and in its entirety, allowing full compliance with the National Flood Insurance Program (NFIP) and any other program that requires submission of an EC.
- Review the new **2023** EC and provide guidance on implementation and use.
- Cover EC requirements for surveying, foundation flood openings, and certification.
- Review how the EC should be completed by the EC certifier and how it should be reviewed by the local community.
- Review Community Rating System (CRS) requirements for an EC and those portions that can differ from other programs.
- Identify portions of the EC instructions that should not be used, in order to achieve full compliance with all programs.
- Include common errors and omissions, review of the various EC building diagrams, and real-world examples.
- Review major changes compared to the 2019 version of the EC, including how Risk Rating 2.0 (RR2.0) insurance requirements affect the EC.

COURSE OBJECTIVES:

- Learn to complete a FEMA EC to satisfy the requirements of the NFIP and any other program.
- Understand the data needs for each individual EC section.
- Understand the EC certifier's role and responsibility in completing EC.
- Understand the local official's role in reviewing ECs for accuracy and compliance purposes.
- Understand how the EC is used by CRS.
- Understand how the EC is used for insurance under RR2.0.
- Understand changes between the 2019 and 2023 EC.
- Change attendees' approach to ECs from 'minimum needs' to 'best practice'.
- Avoid common mistakes that can invalidate the EC for certain programs, including mandatory CRS prerequisites
