

# **Local Position Guide For Missouri Cities**

**Cities: Standard Positions**

The following is a standard list of positions available to each city with a recognized EMA. The rights and examples of people who may have access to each position are listed below.

The permissions associated with each position should not be used to replace any local process already in place. A standard set of universal permissions was created to allow the most flexibility to meet the current processes and policies within each individual jurisdiction. Users are encouraged to use WebEOC as a tool and not a replacement for current processes, relationships and policies.

City positions naming convention is as follows: Region, County, City, Section, Function.  
 Example: F Cole Jefferson City MGT EMA
